

Crane systems

Slewing jib cranes

smooth running systems // aluminium // modular system // boom of 2-6 m length
up to 500 kg carrying capacity // especially suitable for tube lifters and chain hoists

Slewing jib crane, column

- max. jib length 6.000 mm
- max. carrying capacity 2.000 kg
- standard high of hook 2.600 mm
- available as column- and wall mounted jib crane
- innovative acceptance of profile for optimal force of the profiles and low deflection
- absolutly smooth rotation
- different profiles for an optimal price performance and low moments for moving
- easy and quick installation
- main switch integrated in column

slewing jib crane, wall

- max. jib length 6.000 mm
- max. carrying capacity 500 kg

Type*	Boom length (mm)	Carrying capacity (kg)
C / W 125	2000 - 6000	125
C / W 160	2000 - 6000	160
C / W 250	2000 - 6000	250
C / W 320	2000 - 6000	320
C / W 500	2000 - 6000	500
C 2000	2000 - 6000	2000

*) C = Slewing jib crane, column, W = Slewing jib crane, wall

Chain hoists

- various chain hoists available
- contactor control or variable frequency drive
- optional: direct control by our lifting device
- max. carrying capacities: 250, 500 or 1000 kg

Crane systems

Crane-ways

- aluminium
- various dimensions
- max. carrying capacity 1000 kg
- mounted on the ceiling or with steel sub-structure available

steel sub-structure

mounted on the ceiling
